

ADD YOUR DACOTAH BANK CARD TO YOUR DIGITAL WALLET!

We are excited to announce the addition of Apple Pay, Samsung Pay, and Google Pay with Dacotah Bank's card products! Add your debit and credit cards to your digital wallet on your smartphone or device. Digital wallet securely stores your payment information so you can pay for purchases with your smartphone or device.

Use your phone as a wallet at store checkouts! Using Apple Pay, Samsung Pay, or Google Pay cuts down on checkout time, compared to waiting for the payment reader to process the EMV chip on the card. Also, no matter which of these three payment systems you use, your card information is never collected by the merchant. This helps prevent fraud and minimizes damage if the merchant undergoes a data breach. Using Dacotah Bank cards in your digital wallet is safer than using the EMV chip or magnetic stripe on a card!

For the step-by-step process to add a card to a digital wallet follow one of these links -
